This is a classic Australian build that takes you back to a by gone era when true craftsmen toiled by hand to build something beautiful! Have you been looking for a classic timber boat? This is it. The work has all been done. Designed by the famous designer C Raymond Hunt the father of the deep - V hull design who began their operations in 1961. The design was utilised by Culity Timbers in building the boat in 1962 for the Culity Timber family South of Perth and reportedly was a common sight at Rottnest and the waterways of the Swan River.

Fully refitted in 2016 This is a modern boat in almost every way now with just the solid hu...
